BAD RAILWAY RECORDS.

open switch at Palestine. O. ; a stalled freight and a passenger train unwarned, near Chili, in this State ; a vestibule train at Homer, Ill., which couldn't wait for a fast freight to get side-tracked; bad rails, or loosely laid ones, it is as. serted by men who have examined the track, near Kalamazoo.

These circumstances are back of four railway wrecks which figure in the news reports of this morning, and they follow closely the West Shore horror of Thursday, in which fifteen lives were lost. It makes a bad record for railway management. Concerning only one of the four accidents does there seem to be a doubt that it was due to somebody's carelessness or criminal negligence. That one is the Kalamazoo affair, in regard to which officers of the road claim that it was the work of train wreckers.

The men who control passenger railways take upon themselves, in conveying loads of humanity from place to place, the gravest responsibilities. But they do it without hesitation and with the guarantee that all possible care and system shall attend the fulfilment of their contracts, Because of the weightiness of responsibility involved, because of the precious lives lost or endangered through any failure to live up to that guarantee, it becomes imperative that carelessness in the conduct of any train, or negligence in any particular connected with the running and guiding of trains, should be promptly punished. Whether lives are lost or not, there should be a pensity for the alin that causes a wreck. Such great possibilities are often involved that even little consequences must be always con-

Such accidents as have just been re ferred to point to the necessity of better direction and more constant watchfulness as to the way in which even the ordinary rules and regulations of railway service are carried out. If slipshod methods prevail among employees it is more than likely that there is something slipshod also in the way in which the employees are overlooked by those above them.

Immediately after a murder is committed the police have the habit of arresting some innocent person, working a net of circumstantial evidence about him, ruining his reputation forever, and then announcing that it is all a mistake. A Would-Be Rescuer Saved from Drowning by the Man He Went

An exciting story of the rescue from drowning of a Japanese, by an Englishman whose life the Japanese himself had set out to save, is told in a Japanese paper, the Kobe Shimbun,

The Englishman was a resident of To-Being on his way to Yokohama. and finding no ferry-boat owing to the wollen state of the river, he determined Total Editor o swim across with his clothing in a bunle tied on his head.

The during attempt attracted a crowd of sightseers, one of whom, observing that the stranger was apparently in diffi-culty, plunged in and swam to his rescue. The Japanese was a good swimmer, but the waters ran swittly, his strength gave out and he was carried down stream. Then arose a cry from the spectators, for they saw that the Japanese was going

to sink.

By this time the Englishman had almost reached the opposite bonk, but when he heard the cross of the crowd he turned heard the cross of the drowning Japanese about, and seeing the drowning Japanese he again faced the current, and cor me again faced the current, and coming may now ith the drowning man, caught him with one arm and swimming with the other hand he brought him ashore amid the sick Baby Fund. THE CLEANER. Sylvia Gerrish, I hear, has concluded to prolong her stay in Lordon. It was berin-September, but the superior attractions of the "City of Fogs" seems to have prevailed. She and Belle Urguhart have hired a house on Brooks street, London, and propose stopping there through the Winter. They are having

Dr. Nagle, of the Board of Health, is spending the Summer down on the New Jersey coast, near Scabright. He has his camera with him, and when he is not engaged in taking snap shots at striking bits of seaside scenery, he is whipping the Shrewsbury for weakfish and sally growlers.
